LOCATE MISSILES DOWNWIND

Dr. James E. McDonald, university physicist, is shown with some of the illustrations he used in a public hearing on Titan missiles base located before the City Council yesterday. McDonald was named to write the city, but he placed downwind to help avoid the danger of atomic fallout in case of enemy attack on the surrounding area.

Atomic Fallout Dangers
Discussed Before Council

"We are talking about the lives of all Americans," Dr. James E. McDonald said the City Council yesterday. "If this point home is built and used, it is impossible to go downwind and live."

Dr. McDonald warned that the point home would be a deathtrap. "If the point home is built and downwind, it is impossible to go downwind and live."

Attack was sitting in council.
